

The 3 Systems Every Contractor Needs to Win in 2025

Stop Losing Leads, Wasting Time, & Missing Money

Paula Washington, AGame Solutions

What's Missing? Your Business Has a Leak

Your Business doesn't have a pipeline - it has a leak.

How much MONEY are you Losing due to:

Disorganized Clients

Inefficient client management systems?

Manual Scheduling

Wasting time on manual follow-ups?

Missed Calls

Not answering every call?

The Game has Changed: Why Contractors Need Systems to Win

The Reality

Leads slip through the cracks, slow follow-ups lose deals, and missed calls = lost revenue.

The Solution

If your business feels like a grind, it's because you don't have the right **systems** in place. Let's break down exactly where the leaks are...

System #1 – CRM: The Digital Office You Can't Ignore

Before CRM 🚨

🔍 A client calls asking for an estimate, and you **can't remember** what you quoted them.

🗑️ A past client is **ready to book another job**, but you lost their info.

❌ You're guessing, backtracking, and maybe losing the job.

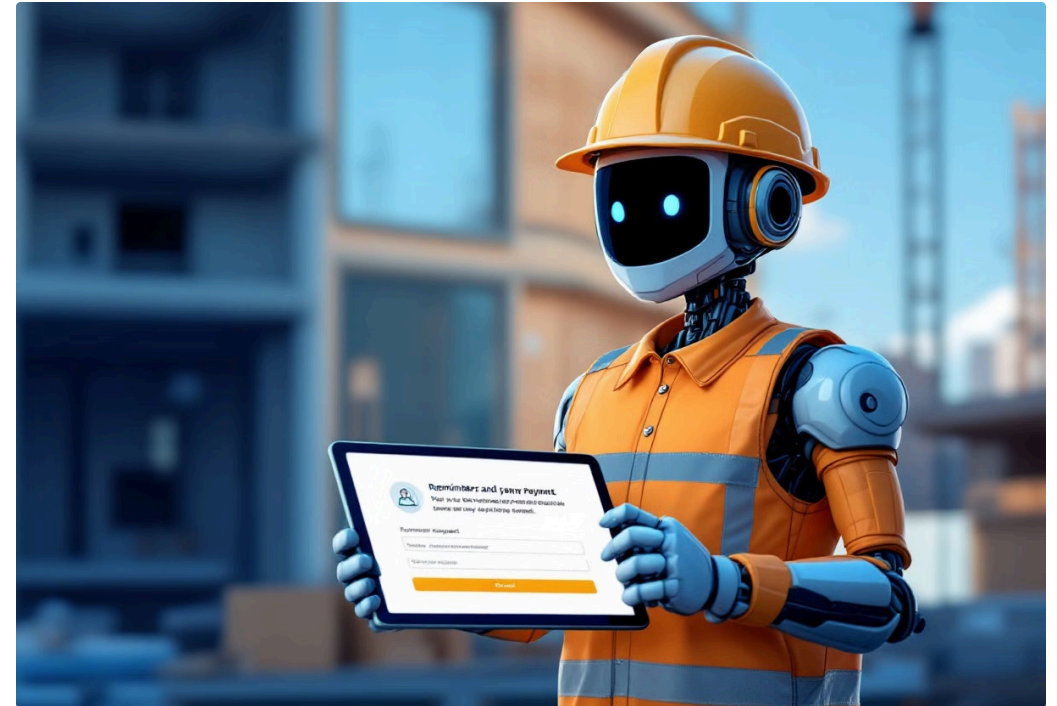

After CRM ✅

📁 **Pull up their name** and past quote instantly—no guessing.

📞 **See their full history** and rebook them in seconds.

✅ **Every client, every job, every note** is in one spot—ready when you need it.

System #2 – Automations: Fix the Time Leaks Costing You Money

📌 The Time Leak – Where You're Losing Money:

- **Follow-ups you forget to send** → Leads go cold.
- **Invoices that get ignored** → Cash flow slows down.
- **Clients waiting on info** → They book elsewhere.

📌 The Fix – Let Automation Handle It:

- ✓ **Instant follow-ups** so no lead slips through.
Auto-payment reminders so you get paid faster.
- ✓ **Pre-set messages & workflows** that handle client updates without you thinking about it.

System #3 – Voice AI: Never Misses a Lead

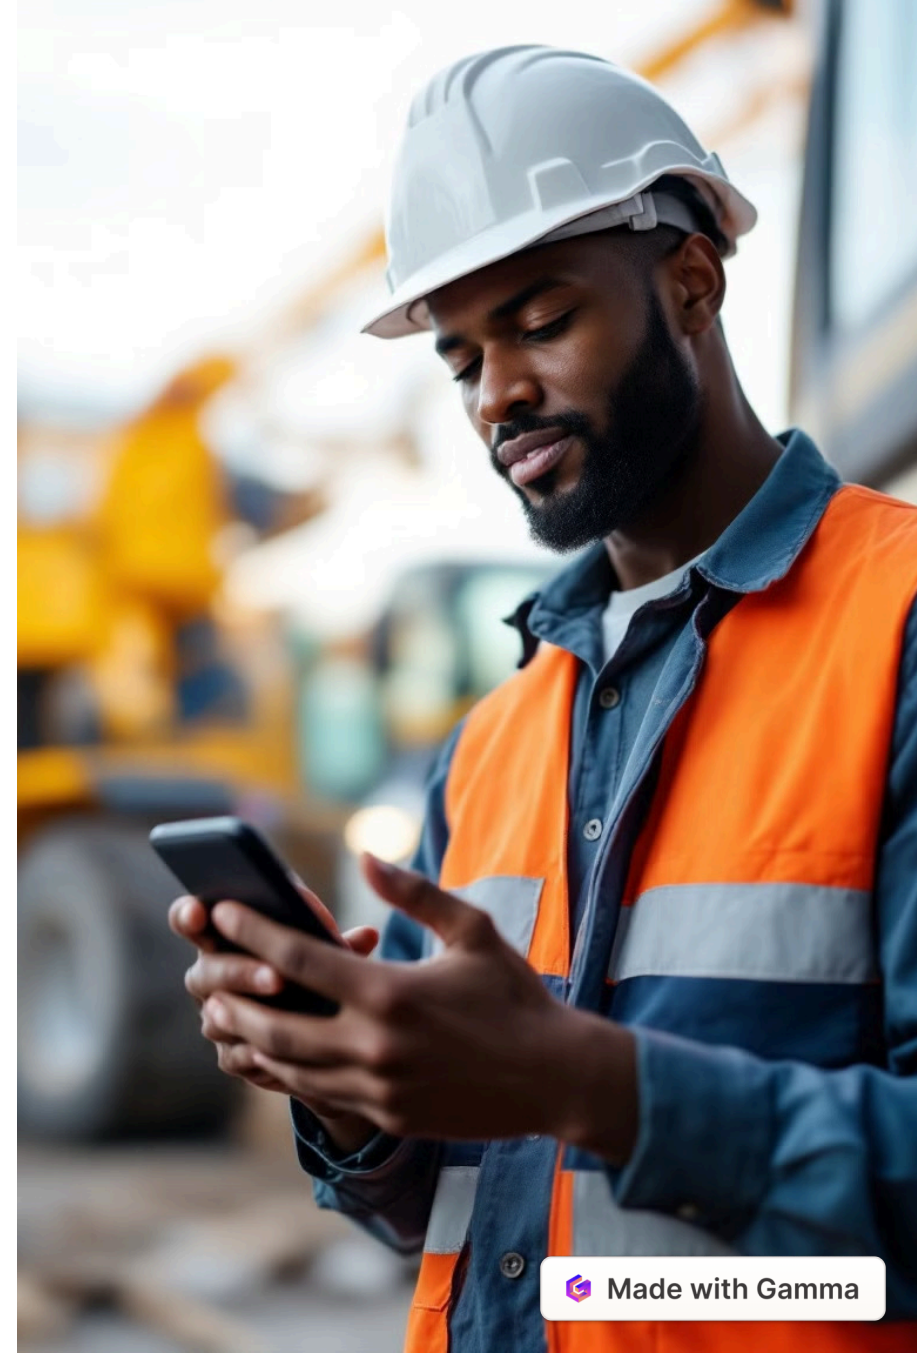

Why?

“If you’re missing calls, you’re missing cash.”

What It Does

AI answers calls, collects details, and books appointments while you’re on-site.

Recap & Immediate Action

- 1 CRM**
Organize your business.
- 2 Follow-Up Automation**
Close more deals.
- 3 Voice AI**
Stop missing money.
