Email: michal.catari@wolfvre.com

WOLFVR is for market leaders looking to sell and showcase unbuilt property like never before. We transform 3D models into life-like Virtual Experiences that can be explored on mobile phones, tablets, VR headsets and the web.

The WOLFVR platform was built with the sales process in mind and hosts all digital marketing assets as well as boasting a range of powerful sales tools including data and analytics, stock control and CRM integration.

CLIENT TESTIMONIAL

"It just makes it so easy for a potential purchaser to visualise their dream home or investment, in a matter of seconds."

DAVINA POLETTO
Ray White Projects

SOLUTIONS

FEATURED PROJECTS

VIRTUAL APARTMENTS

Give buyers certainty when purchasing off-the-plan. They can explore their future home or investment in 1:1 scale on tablets, phones, VR headsets or the web.

VIRTUAL HOMES

Showcase every design in your catalogue with Virtual Homes. Buyers can explore each design in perfect scale and easily compare floor plans and color schemes.

INTERACTIVE DISPLAY

The all-in-one sales tool that houses all marketing assets for a project. Access CGI renders, floor plans, floor plates, brochures, project descriptions as well as virtual experiences; giving them everything they need to effectively sell and showcase off-the-plan property.

VIRTUAL EXPERIENCES

Showcase and sell unbuilt property like never before. Immerse your buyers in your design with 1:1 scale Virtual Experiences that are easily accessible via mobile phone, tablet, VR headset, or the web. The WOLFVR platform combines Virtual Experiences with powerful sales tools, giving you everything you need to successfully sell and showcase your project.

Choose three levels of quality for your experience: White Wireframe, Textured Wireframe or Photorealistic.
